

Update: Keystone First Formulary Change

As of August 01, 2016, Symbicort® has been removed from the Keystone First drug formulary.

Members currently receiving Symbicort® will require a new prescription for an alternative product before **September 15, 2016**. Members for whom it is not medically advisable to change therapy will require prior authorization to continue to receive coverage for the non-formulary product.

Formulary Removals	
Product list	Alternative Product(s)
Symbicort® (budesonide/formoterol fumarate)	<ul style="list-style-type: none">Breo Ellipta, Anoro Ellipta, Incruse Ellipa, Asmanex, Flovent Qvar, or Dulera
