

****Correction******Important value code and length of stay billing reminder**

Keystone First would like to remind you that we are required to follow all Department of Human Services (DHS) and national billing guidelines. This requirement is applicable to value codes and length of stay claims submissions.

Therefore the value code amount billed must equal the inpatient length of stay based upon the admit and discharge date.

Corrected example:

Admit date = 3/1/2017

Discharge date = 3/10/2017

Billed Revenue code = 80

Value code amount = **9 (not 10 as indicated in the prior notification, since the discharge date is not included in the length of stay count)**

We will soon be rejecting claims that do not follow this requirement. If you have any questions regarding this notice, please contact Provider Services at 1-800-521-6007 or your Provider Account Executive.
