

**Connect Keystone First expectant members with addiction issues to the PEARL program**

Keystone First maternity patients who are struggling with addiction now have an additional resource through the (Prevention, Education, Addiction treatment, Recovery, Link to resources) PEARL Program, a collaboration with Crozer-Keystone.

The PEARL Program provides dedicated comprehensive intensive case management and nurse navigation services for Keystone First maternity patients struggling with substance abuse during and after pregnancy for up to two years. Patients will be connected with physicians, community agencies, Crozer-Keystone facilities and other facilities throughout Delaware County as well as Nurse Navigators, Case managers and recovery support specialists.

For more information regarding this program, contact the PEARL Program by calling **610-619-8461** or visit **www.crozerkeystone.org/PEARL**.
